Helps support urinary tract health

- Cranberry extract (pacran®)
- Allergen-free
- Sugar-free

One in two women suffer from a urinary tract infection at least once in her life. With just 2 gummies per day, our new Cranberry Gummies can help prevent and even reduce the recurrence of urinary tract infections.

Cranberry is classified as a “superfruit” known for its high vitamin and antioxidant content, in addition to its enormous nutritional properties. It contains proanthocyanins that have a great anti-inflammatory power, a large amount of Vitamin C that acts in the formation of collagen and reinforcement of the immune system. It also includes a large amount of Vitamin D, which is important in the absorption of calcium and bone strengthening.

Our product Cranberry, as well as containing this enormous antioxidant power, is also a low-calorie and low-fat food supplement with no added sugars.

- **Cranberry extract (Pacran®):** comes from the whole fruit of the cranberry (originating in North America) with a high level of proanthocyanins as the active ingredients. Cranberries help prevent the adhesion of pathogenic bacteria (E.coli) to the urinary system and preventing colonisation and consequent infection.

- **D-Mannose:** a substance that occurs naturally in plants. It has a great complementary effect when combined with cranberry extract, as they act by enhancing its antioxidant power, thus improving the health of the urinary tract. Ingredients: Sweeteners: Maltitol, Sorbitol; Water, Cranberry extract, Gelatine, D-mannose, Acid: Citric Acid; Coconut oil, Rapeseed Oil, Glazing agents: Carnauba Wax, Beeswax; Flavouring, Natural Colouring: Carmines.
